Lateinamerika und die Karibik bilden eine der am stärksten urbanisierten Regionen der Welt, und weiterhin verzeichnen die Städte enormes Wachstum. Um auf die damit verbundenen Herausforderungen zu reagieren, müssen langfristige Strategien entwickelt werden. Wie erweitert man eine wachsende Stadt, ohne ihre Urbanität zu verlieren? Wie kann das städtische Wachstum mit sozialen, ökologischen, kulturellen und wirtschaftlichen Fragen verknüpft werden? Urban Design Lab (UDL) hat in mehr als 20 Städten Lateinamerikas und der Karibik gearbeitet – und dabei Planungswerkzeuge entwickelt, die Transformationsprozesse anstoßen, indem sie Nachbarschaften vor Ort miteinbeziehen und unterstützen. Dieses Handbuch erläutert den Kontext sowie die Herausforderungen dieser Städte und bietet Lösungsansätze für die Probleme urbaner Agglomerationen.

As described in step 1 section 4 1 the minimum input data for the tool consists of information on any policies and urban plans that relate to or impact urban resilience as well as general information on the geography demography and economy of the city under study emerging threats vulnerabilities local strengths and goals and a basic understanding of the urban systems and munities
