"Pressestimmen 'A ground-breaking book, where the voices of activists and those of researchers come together to address one of the most important, and complex, phenomena of our time: the transnational market in baby-making.'--Yasmine Ergas, Columbia University'Transcending the usual rhetoric of reproductive choice and free markets, these authors provide reasoned argument and survey evidence from around the globe, questioning whether surrogacy really represents a 'win-win' situation for all parties.'--Donna Dickenson, University of London'Tackles the booming business in cross-border surrogacy with a provocative collection of international feminist perspectives. It challenges us to think harder about the elephant-in-the-room question: Can commercial

transnational surrogacy ever be ethical? This volume makes an important contribution to the debate.'--Marcy Darnovsky, executive director of the Centre for Genetics and Society, Berkeley, California'The collection lays out detailed considerations that should be taken into account, through legal regulation, in any surrogacy arrangement, regardless of a country's position. . . . Whether this will be done, and if so, how rapidly, will depend on the energy brought. . . . Davies's anthology is an invaluable contribution to galvanizing that energy.'--Jane Cottingham, Reproductive Health Matters'Miranda Davies has brought together a number of eminent authors and produced an outstanding collection. By combining academic approaches, empirical evidence, and real-life stories, this book adds an entirely new dimension to the debate on the ethics of cross-border commercial surrogacy.'--Katarina Trimmings, University of Aberdeen'The essays express concern for the safety and livelihood of surrogates, egg providers, and children; several argue for reform, regulation, and international cooperation, and others for an outright ban on surrogacy and reproductive tourism. . . . Highly recommended.'--Choice'These original, informed, and critical analyses of transnational surrogacy make a vital intervention in impassioned debates. Chapters by leading international scholars and activists address ethical issues, feminist perspectives and the implications for children. They deserve to be widely read.'--Ann Phoenix, Institute of Education, University of London

Über den Autor und weitere Mitwirkende Miranda Davies is a writer and editor with a longstanding interest in gender, development, and human rights.
